

# **The Hebrew University of Jerusalem , Astrophysics Seminar**

**Prof. Alexander Vilenkin**

**Institute of Cosmology at Tuft University**

**Kaplun Building, Seminar room, 2nd floor**

**"The universe beyond the horizon"**

Cosmic inflation is generically a never ending process, with new "bubble universes" constantly being formed. I will discuss the origin of this "multiverse" worldview, its possible observational tests, and its implications for the beginning and the end of the universe.

Additional details of the upcoming Astrophysics' seminars can be found at the following link - [Astrophysics Seminars](#)
